

# UNIVERSAL RECEIVERS

COMPATIBLE WITH FIXED CODE OR ROLLING CODE PLUS TRANSMITTERS

## RF UNI PG 433 MHZ

- ▶ Plug-in receiver narrow band
- ▶ 800 codes for rolling code or fixed code
- ▶ Radio module to be combined with control units of DG series
- ▶ 433 Mhz available frequencies
- ▶ With filter in antenna, compatible for transmitters with fixed code
- ▶ Back up data trough memory

## SIGNAL BOX UNI PG 433 MHZ

- ▶ Narrow band receiver (super-heterodyne)
- ▶ 800 codes for rolling code or fixed code
- ▶ Radio module to be combined with control units of DG series
- ▶ 433 MHz available frequencies with RF UNI PG (internal RF UNI PG extractable)
- ▶ Integrated antenna
- ▶ Compatible with all SEA fixed code or rolling code transmitters
- ▶ Back up data trough memory
- ▶ With filter in antenna
- ▶ IP 55 protection class
- ▶ 2 and 4 channels available versions
- ▶ Size: 4,3 x 2,7 x 1,6 inches (antenna not included)

## FLEX UNI PG 433 MHZ

- ▶ 433 MHz available frequencies with RF UNI PG (internal RF UNI PG extractable)
- ▶ Narrow band receiver (super-heterodyne)
- ▶ 800 codes for rolling code or fixed code
- ▶ Radio module to be combined with control units of DG series
- ▶ Compatible with all SEA fixed code or rolling code transmitters
- ▶ Back up data trough memory
- ▶ IP44 protection class (internal use)
- ▶ Size: 3,3 x 1,7 x 1,3 inches
